FOOTBALL.

BRITISH LADIES F.C. v. MR. JONES' XI.

—This match, the first of its kind ever played in Swansea, took place at the Vetch Field on Monday evening. Other attractions were no doubt responsible for the small number of spectators. The game was evenly contested throughout, the backs on the visiting side being in splendid form, and gave the gentlemen forwards a warm time of it. Final score:—Mr Jones XI., 4 goals, British Ladies' Football Club 4 goals.

SOUTH WALES ECHO Saturday 18th SEPTEMBER 1993

Women take centre stage

WELSH soccer moves onto a new international stage tomorrow when the Wales women's side entertain Switzerland, at Cwmbran Stadium (3.00pm).

The game is Wales' first in the women's European Championship and has wide significance.

Alun Evans, the Football Association of Wales secretary, said: "It completes our representation in European competitions."

"We now take part in every European competition at international level and as an association it helps us in our case that we are entitled to be separate."

According to Evans, women's soccer is the biggest growth sector in the game, with Europe's governing

body, UEFA, extremely keen to increase its popularity.

The FAW gave the sport a boost by holding the women's Welsh Cup final prior to the men's event, at the Arms Park National Stadium.

The Welsh national side is managed by Inter Cardiff boss Lyn Jones, who has had experience of being in charge of the Wales non-league team.

They were beaten 1-0 in a warm-up friendly by Iceland a few weeks ago and will have their work cut out in the group.
